

Python Roadmap

Python Programming
roadmap for 2025-26

ZAINAB FATIMA

FOLLOW

01

Python Syntax
Basics

02

Data types

03

Variables

04

Operators

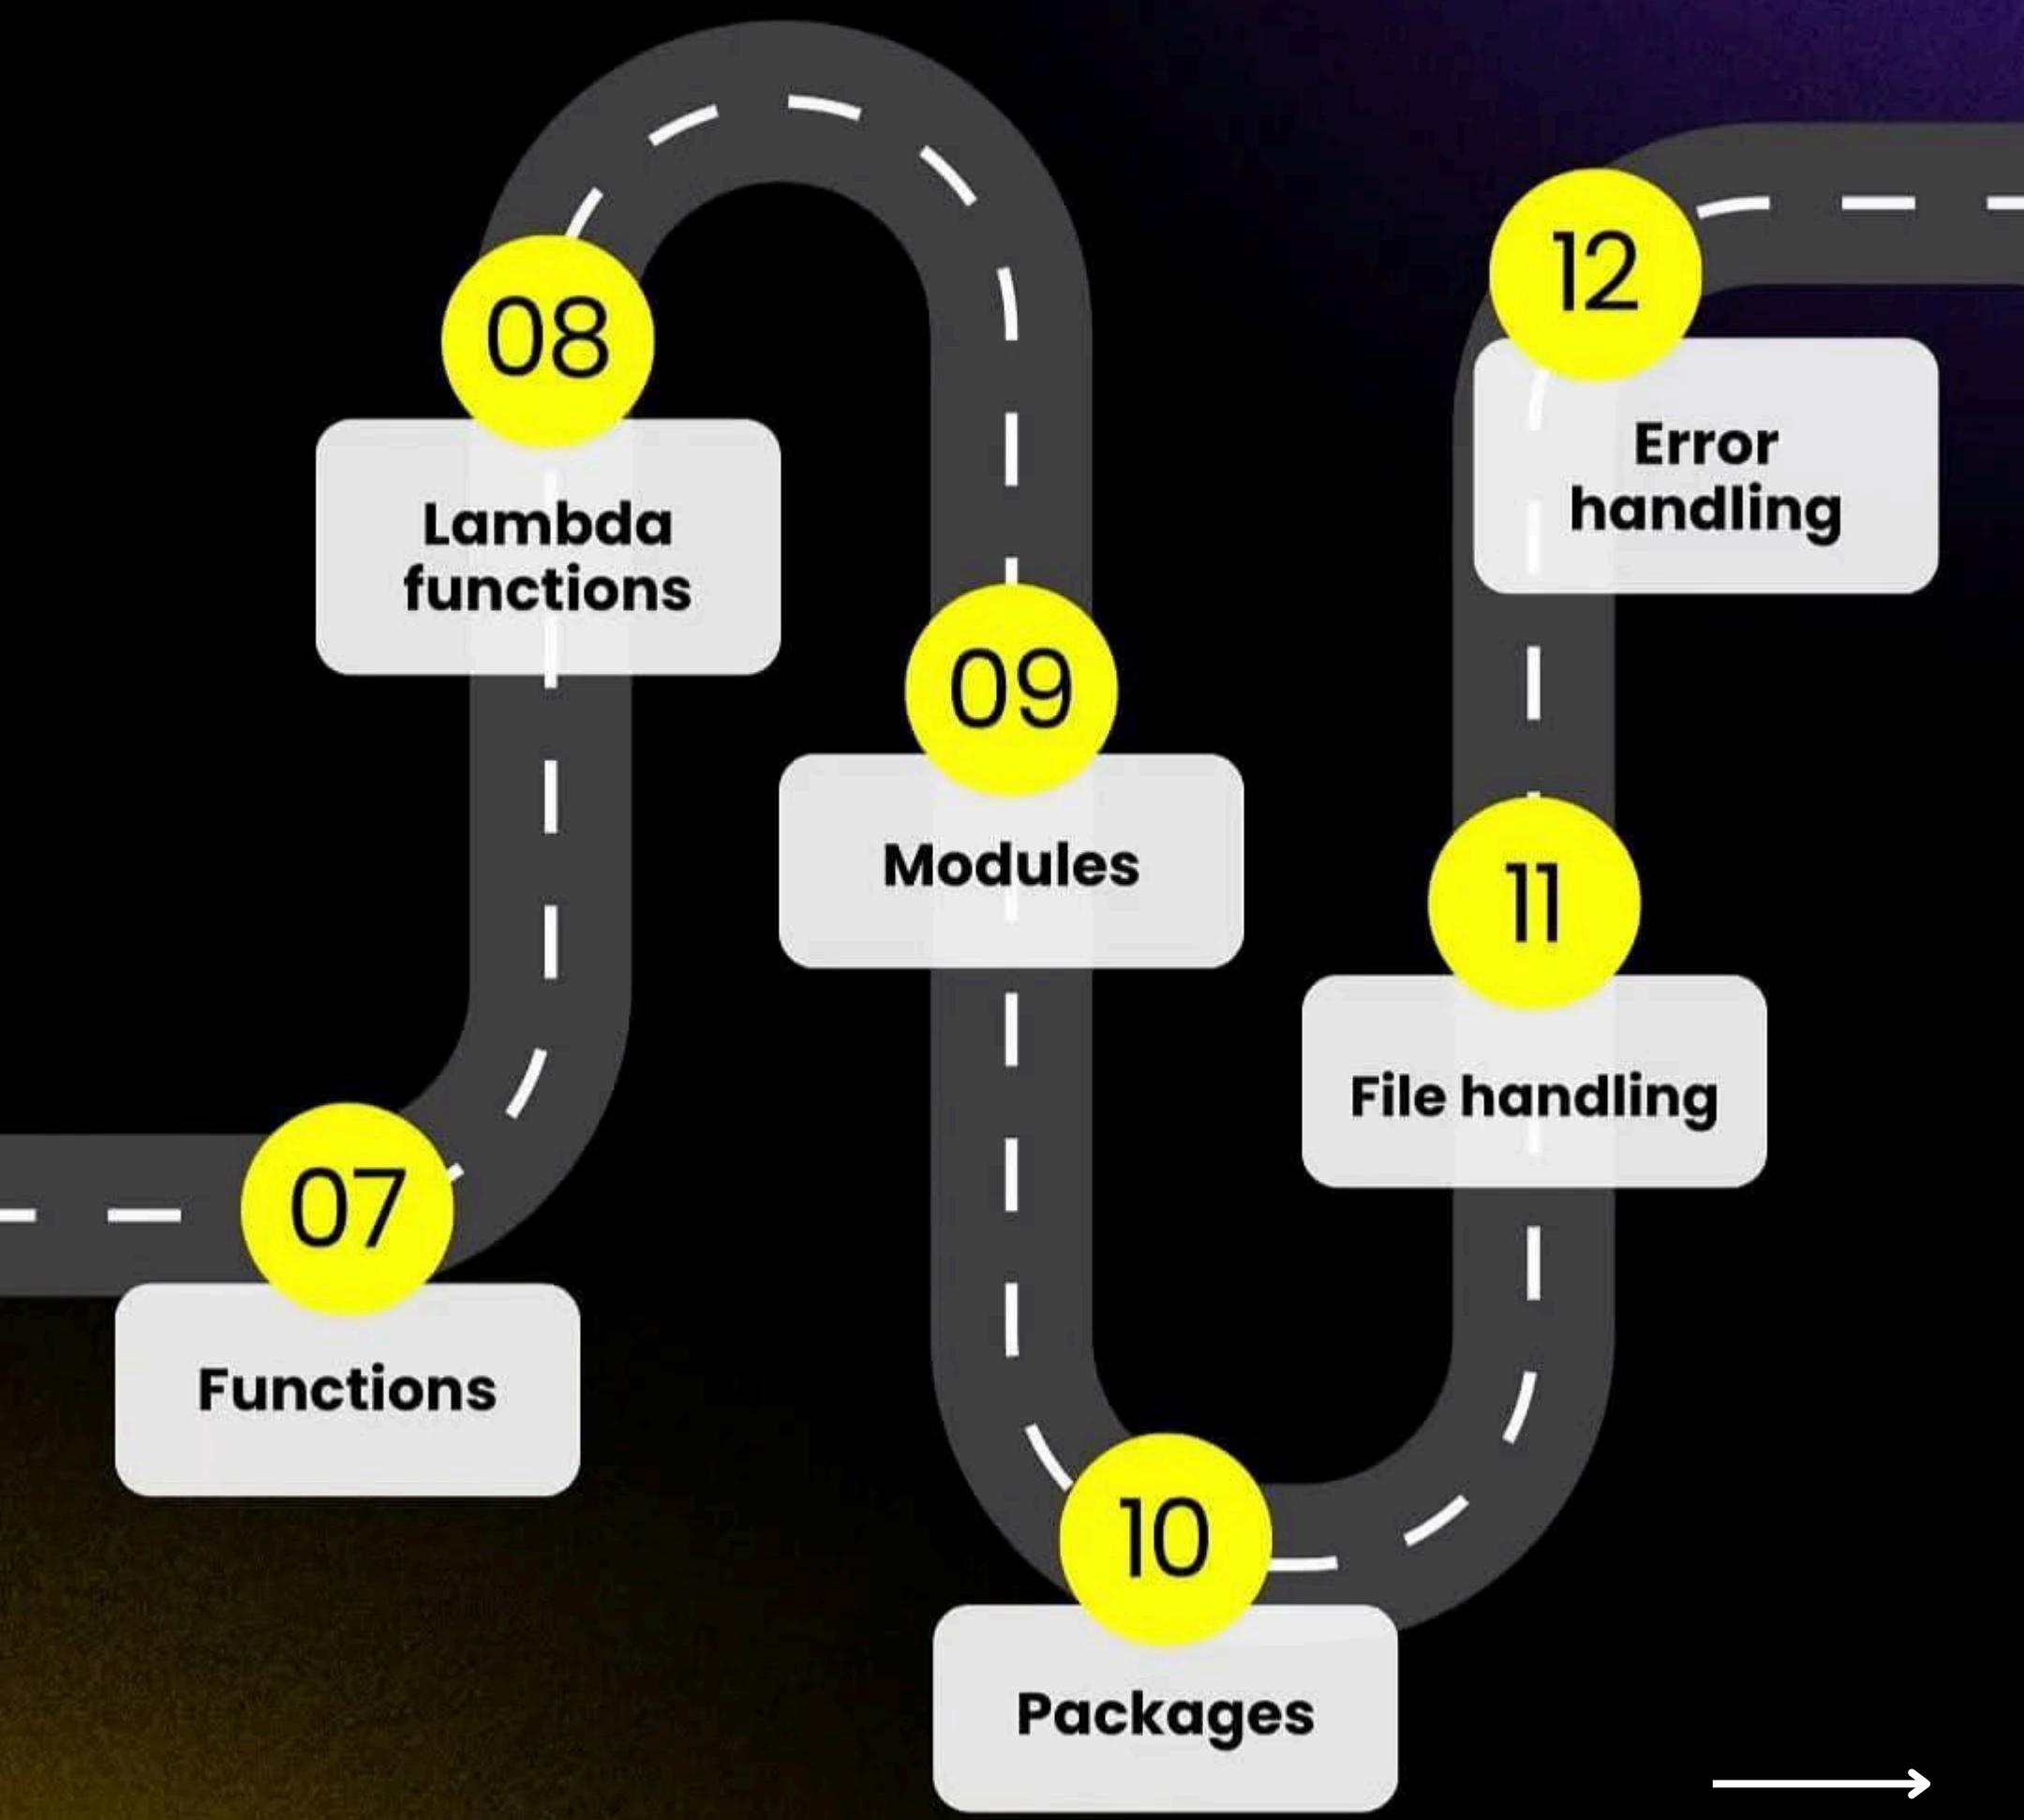

05

Conditional
statements

06

Loops

13

List
comprehension

14

Generators

15

Iterators

16

Object oriented
programming

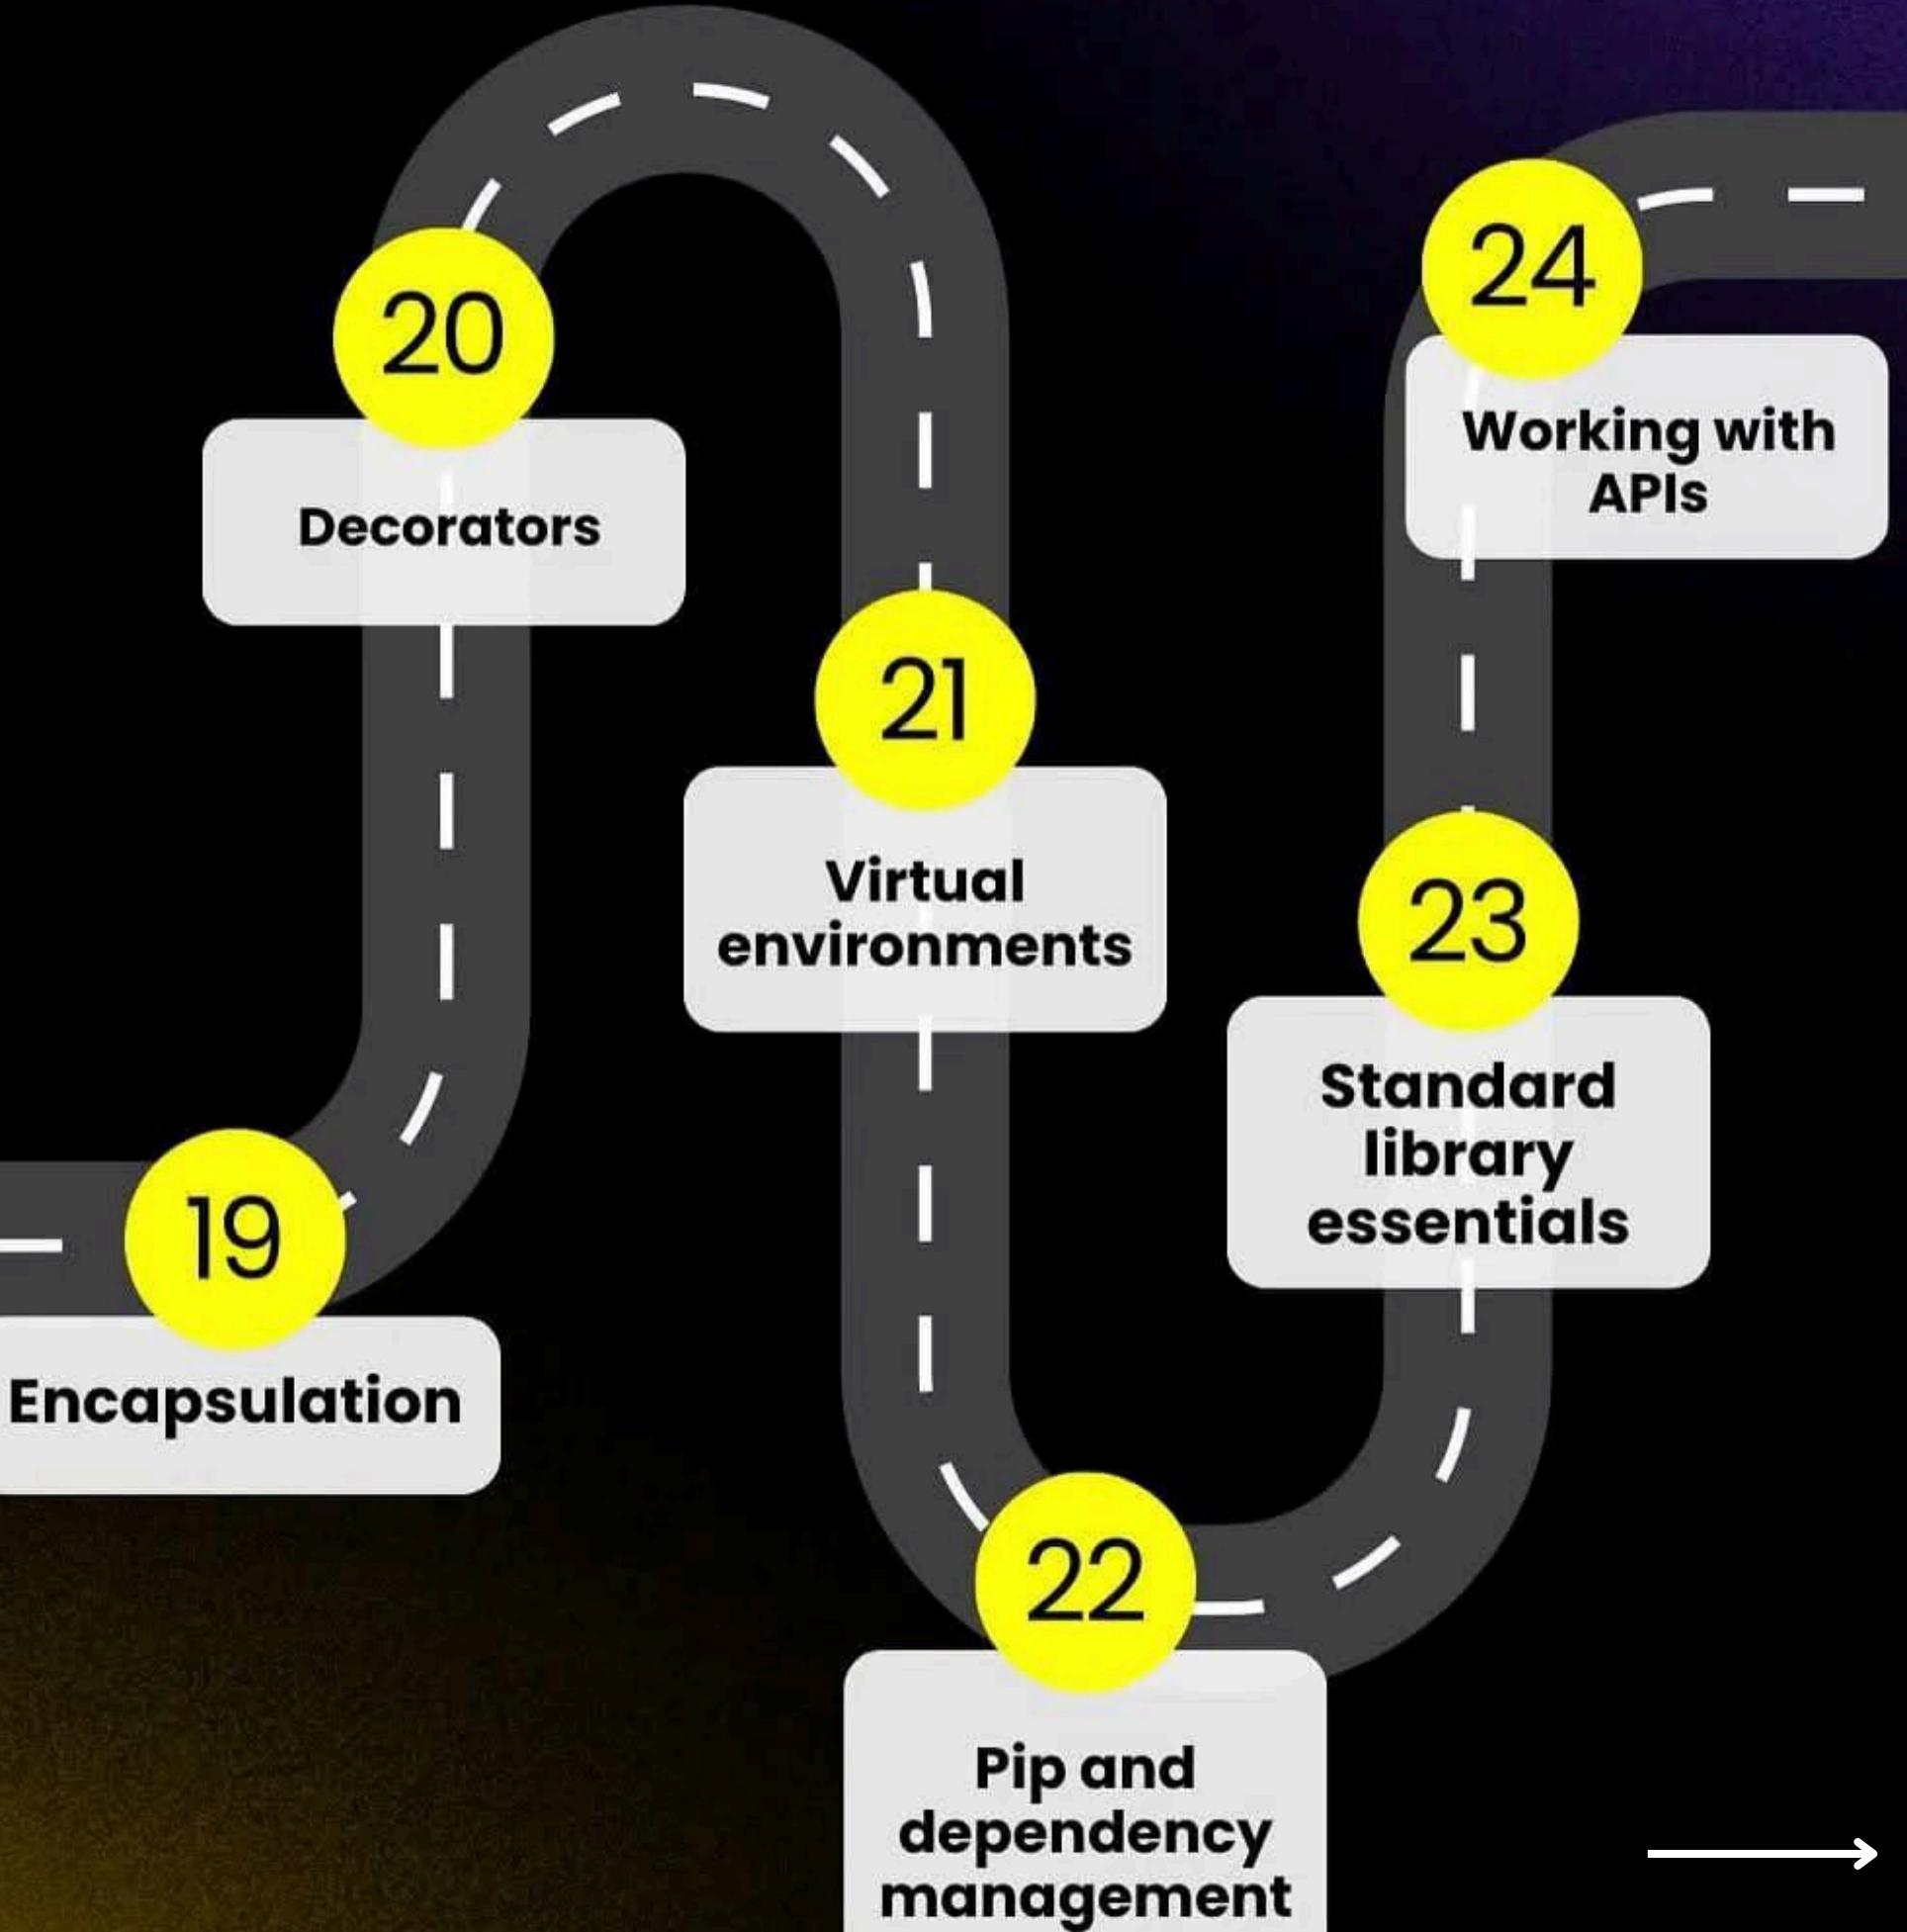

17

Inheritance

18

Polymorphism

25

Data structures
and algorithms

29

Async
programming

28

Web
scraping

26

SQL basics

30

Building
projects

27

Python with
databases
